

RECORDS OF THE CIVILIAN CONSERVATION CORPS (RG 35)
RECORDS OF THE DIVISION OF INVESTIGATIONS

CAMP INSPECTION REPORTS, 1933-42

Entry 115 (PI #11)

Archival Research Catalogue (ARC) ID Number 565152

This series consists primarily of forms completed by special investigators containing information concerning the general welfare of the enrollees and general camp conditions. The forms provide information on company number, race of enrollees, date of camp establishment, camp location, names of military personnel, condition of buildings and sanitation facilities, medical services, religious services, safety, discharges and brief descriptions of work projects. Other records submitted to the Office of the Director of Investigations give information concerning names of technical supervisory personnel, typical menus and nutrition, standards of educational facilities and programs, and recreational activities. Some inspection reports include correspondence about problems with camp facilities or the conduct of enrollees and supervisory personnel. The series also includes the records of special investigations arising from complaints and charges of mistreatment or fraud at particular camps.

The records are arranged alphabetically by state and then by camp number.
